

REPORT

AAVISHKAR INSTITUTE

A Project Submitted To
BHAKTA KAVI NARSINH MEHTA UNIVERSITY

*Submitted in partial fulfillment of the requirements
for the degree of*

Bachelor of Computer Application
Submitted By

Tanu Sharma

Enrollment No: 03052000812

Under The Esteemed Guidance Of
Dr. Neha K. Shah.

Faculty of BCA
JKM BCA College, Junagadh.

Preface

There is a wide difference between theory and practical. If one has only theoretical background of any subject, one would not succeed in own aim therefore, it is necessary for any person to have acceptable practical knowledge of the concerned subject. As I know BCA is a course based on “Information Technology” and it is totally practical field. With only theoretical knowledge one can’t be succeeded or one can’t be on the peak position.

In the course of BCA designed by the “Bhakta Kavi Narsinh Mehta University” they have taken full care of these things and designed the course in such a manner with which student can get both theoretical and practical knowledge perfectly. According to the rules & regulations of “Web Development”, I have a subject named “Aavishkar Institute”. In which we have to create a web project of any institute or industry.

As a BCA student, I have gathered general information about whole admission process. Then I decided to develop the site for that. In this site you can take admission to Aavishkar Institute very easily and become a user of our website.

In this project report I have covered all the information, which is required for the web project of BCA student.

I have tried my best in this project report in such a way that it makes easy to understand the project work.

Acknowledgement

I am thankful to all, who have helped me in preparing this project. I am very much happy to present this “Project Report”. Before you expect that you will acknowledge it, it is a matter of great pleasure for me that I had an opportunity to express my view on the same.

As a part of my academic study, as the student of 6th semester of BCA I am required to experienced training software project on an institute or industry in order to obtain practical knowledge and broaden me regarding the same.

At first, I would like to express my humble thanks & gratitude to those who provided me such a great, co-operative & progressive environment.

Secondly at this moment, I would like to express my deepest sense of gratitude to my professor as well as project guide who have contributed their precious time for the purpose of giving me the correct information with special interest & guidance throughout my project work.

I am also thankful to my classmate and few others who helped me directly or indirectly in solving problem & in making my software project more efficient & good working.

Index

Chapter No.	Title	Page No.
1	Introduction and Object of Project	1,2
2	Tools or Platform	3
3	System Analysis	4 to 39
	3.1 Identification of Needs	4 to 7
	3.2 Preliminary Investigation	8,9
	3.3 Feasibility Study	10 to 15
	3.4 Project Planning	16
	3.5 Project Scheduling	17,18
	3.6 Software Requirement specification	19 to 25
	3.7 Data Models	26 to 37
	3.8 Normalization	38 to 39
4	System Design	40 to 109
	4.1 Tables Detail	40 to 50
	4.2 Database Structure	50
	4.3 Visitor Interface	51 to 56
	4.4 User Interface	57 to 65
	4.5 Admin Interface	66 to 78
	4.6 Source Code	79 to 109
5	Testing	110 to 124
	5.1 Techniques and Strategies	110 to 113
	5.2 Cost Estimation Model	114 to 121
	5.3 Future Scope and Further Enhancement of the Project	122
	5.4 Bibliography	122
	5.5 Appendices	123
	5.6 Glossary	124
